CIF
Reading stage
repairs made by feature and recorded;
every bond computed from the positions
P Parse
Can the file be read?
no
EXPUNGE
no bond valence result quoted
yes
G Geometry
Can the atoms be where the file puts them?
six independent screens; a proposed origin
shift is tested on a copy, never applied
no
EXPUNGE
no bond valence result quoted
yes
R Reference
Are there bond valence parameters and
measured bond lengths for every ion?
no
NOT_ASSESSED
part of the analysis missing, not wrong
yes
M Model
Is the deposited description unambiguous?
no
FLAG
sums and GII hold, ambiguity named
yes
ACCEPT
or ACCEPT_IMPRECISE, _HOMOVALENT,
_HETEROVALENT; sums and GII reported
